

YOUR NAME

Java Developer | your.email@example.com | +91-XXXXXXXXXX | City, India | linkedin.com/in/yourname |
github.com/yourusername

PROFESSIONAL SUMMARY

Motivated Java Developer with a strong foundation in object-oriented programming, Spring Boot, and RESTful API development. Skilled in building and debugging applications, working with relational databases, and applying data structures and algorithms to solve problems efficiently. Quick learner, eager to contribute to a collaborative development team while continuing to grow technical skills.

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL
- **Frameworks/Libraries:** Spring Boot, Hibernate, JUnit
- **Tools:** Git, GitHub, Maven, IntelliJ IDEA, VS Code, Postman
- **Databases:** MySQL, PostgreSQL
- **Concepts:** OOP, Data Structures & Algorithms, REST APIs, MVC Architecture

EDUCATION

B.Tech / B.E. in Computer Science / Information Technology

Your College/University Name — City | Expected Graduation: 2027 | CGPA: X.XX/10

PROJECTS

Library Management System

Java, Spring Boot, MySQL

- Built a full-stack application to manage book inventory, member records, and issue/return tracking.
- Designed REST APIs using Spring Boot and connected to a MySQL database with JPA/Hibernate.
- Implemented CRUD operations and basic authentication for admin and user roles.

Student Result Management System

Core Java, JDBC, MySQL

- Developed a desktop application to store and calculate student grades and generate report cards.
- Used JDBC for database connectivity and implemented input validation to reduce data entry errors.

CERTIFICATIONS

- Java Programming — [Platform Name, e.g., Coursera/Udemy] (Year)
- Data Structures & Algorithms in Java — [Platform Name] (Year)

ACHIEVEMENTS / EXTRACURRICULAR

- Solved 150+ problems on LeetCode/HackerRank covering arrays, strings, and DSA fundamentals.
- Participated in [Hackathon/Coding Club] — briefly describe role or outcome.
